Willie Lewis was not absent all year.

Max Dunlap and Carl Tobiassen of the fourth grade, Claris Holland and William Gribben of the sixth grade and Helen Arbogast and Gertrude Wilde of the seventh grade had perfect attendance records for the year.

Warren Chapman and John Sbaffi were on the fifth grade honor roll.

NEOCENE MILLL WILL BE STARTED IN 30 DAYS

With the arrival of C. A. Ackerman, well known San Francisco metallurgist, to take charge of milling operations at the Neocene mine north of town, it is expected that the mill will be working within the next 30 days on a large tonnage of gravel that has already been blocked out on the property and which has demonstrated excellent values.

REWARD MINE TO BE MARKED BY COUNCIL

Immediate marking of the Reward Mine, where President Herbert Hoover worked when a young man. was proposed last week by Leslie Davies, secretary of the Sacramento Region Citizens Council. At the present time there is nothing to inform the tourists that they are in the vicinity of a mine from which Hoover started on his road to fame.

"The Trails of Forty-Nine Committee will seek to have this spot marked at the earliest possible moment and advertised in literature and maps which it will publish for distribution in the east", stated Davies. "Our highway markers will direct people to the mine and we also will endeavor to have a placed there".

WINZE SINKING AT GRACEY PROGRESSING

Sinking of the new winze at the Gracey mine is making good progress and results so far are encouraging in the matter of following the shoot of ore picked up in the drift on the 170 level. E. L. Herrington of Oakland has retired from the scene of operations. R. N. McCormack is superintendent.

ROAD OILING UNDER WAY TWO HIGHWAYS

The Tahoe Ukiah state highway between Rough and Ready and Browns Valley is being given a coating of oil by the maintenance department, which will give a paved highway between Marysville and Nevada City. The link in Lake county is expected to be completed this season with the surfacing under way which will cut over a hundred miles of travel between Ukaih and Nevada City when completed.

The work of oiling the state highway between Nevada City and Downieville is scheduled to get under way as soon as the weather clears up.

RAILROAD HEARING IS POSTPONED NEXT WEEK

A discussion as to the merits of the application of the Great Northern and Western Pacific railroads to build 200 miles of new line in Plumas, Lassen and Modoc counties was held at the meeting of the Nevada City Chamber of Commerce at its meeting last week and the matter was finally carried over to an adjourned meeting tomorrow night at the chamber headquarters. Representatives of both sides to the railroad controversy will be invited to be present on that occasion.

The Alpha Hardware and Supply Company landed one of the supply contracts for the Grass Valley schools.

COMPRESSOR AT BRUSH CREEK TO SPEED THE WORK

A compressor is being installed at the Brush Creek mine above Goodyears Bar and will make for much better time in the underground operations at this property. President and Mrs. Ben F. Ballard of Santa Rosa were at the property several days the past week on a visit of inspection, returning home Thursday. They expressed themselves as well pleased with the showing being made at the property.

The ore blocked out is holding up well in values and extent and the company is not yet confronted with the necessity of sinking deeper. The Brush Creek is one of the most promising of the properties of the district, the present shoot of ore being mined being one of the leading strikes made in the past few years.

The property is equipped with a ten stamp mill which is operating steadily.

TWIN SISTER WORK PROGRESSING NICELY

Development work at the Twin Sister property is progressing in nice shape with two shifts at work in tunnel No. 3. Rapid headway is being made with the machine drills. The promised coming of electric power will speed up operations greatly at this property as the water supply is not a dependable source for year around use.

SCHOLARS WILL PAY TUITION OUT DISTRICT

Among the numerous laws enacted by the last legislature which has been signed by Governor Young and which is of interest locally provides that pupils attending school outside the district in which they live will have the state funds for their education credited to the district of their residence and not where they attend school. This will affect Indian Flat, Blue Tent and Oakland schools where pupils have been attending from Nevada City.

ENGLEBRIGHT HIGHLY COMPLIMENTED WORK

Congressman Harry L. Englebright has been receiving many newspaper compliments on the way he saw the congressional reapportionment bill through the House of Representatives the past week. The bill had been floundering in a legislative tangle until he took hold of the problem and engineered a successful course. The bill when enacted into a law will give California several extra members of Congress, mostly in the southern portion of the state. The boundaries of the second district presided over by Harry will remain unchanged.

MANY JOB ORDERS ARE POURING IN TO OFFICE

The Nugget job department is receiving a large number of voluntary orders for printing which is ample proof of the class of service and prices afforded by this plant. Many compliments have been heard on the excellent quality of work produced on The Quill, the high school annual, which has been turned out from this office the past two years. Delivery both years has been well ahead of schedule.

New fonts of type are being regularly added to the equipment to keep the plant thoroughly modern. Among one of the popular new lines just added is a hand tooled italic open face type which is proving much in demand by discriminating purchasers of printing. It is not necessary to send printing orders out of Nevada City to be done. Eight hour service on emergency work is affaorded.

Frank Holbrooke, Jr., has been appointed foreman of the Rising Sun mine at Colfax.

DAVIES VISITING HISTORIC SPOTS REGION COUNCIL

Leslie Davies, secretary of the Sacramento Region Citizens Council, was visiting in this city last week, obtaining material for a page write-up in the Sacramento Union on Nevada County. This page will appear on June 23rd. The material also will be used in broadcasts over KFRC of San Francisco, for easern and middle western people.

Davies was also making preliminary surveys for the marking of historic roads and landmarks which is being furthered by the Trails of Forty-nine Committee of the Sacramento Region, an organization fostered by the Council. All of the historic roads will be marked for the purpose of interesting tourists in visiting this section and remaining here for excursion trips.

The proposal of establishing a historical museum in Nevada City, one of the projects of the Forty-Nine Committee, was discussed with O. D. Woodman, secretary of the the Chamber of Commerce. The Council is seeking the establishment of museums in all of the twenty-one counties that comprise the Council.

The museum will contain historical articles and relics of gold rush days. In commenting upon the plan to mark the trails and establish museums, Davies said:

"There is no reason why Northern California should not enjoy the that are now so valuable to Southern California. The visitors from the east are seeking romance in California and no other place can vie with Northern California in this respect. But in order to bring them here we must have the landmarks designated and have things to show them and advertise. The Trails of Forty Nine Committee is going to bring this about, the result being that thousands of tourists will be coming into this section. The south values the tourist trade above any of its other industries. It will be of equal in importance to us".

WYOMING DRIFT SHOWS ENCOURAGING VALUES

Opening of the old Wyoming drift on the Champion property is cutting into some promising rock in new ground and this will be followed. A stringer showing good values is in the face of the drift. A number of leasers are now at work under direction of William A. Sharp and William Rockefeller, who are erecting a five stamp mill on the Wyoming claim.

SOUTHERN PACIFIC TO BOOST NEVADA COUNTY

A party of Southern Pacific officials was in this section Friday and Saturday viewing the various historic and scenic spots which they propose to publicize in their literature. In the party were, F. Q. Tredway, assistant advertising manager; E. S. White, traveling passenger agent of Sacramento; Nels Kinell, assistant passenger agent; H. M. Fish, staff photographer, and H. C. Petersen, curator for the Fort Sutter Museum at Sacramento.

The party was taken to Rough and Ready, North Columbia, North Bloomfield and were to make a trip into Sierra county to Downieville and Sierra City.

The members of the party were enthusiastic over the possibilities of this section in providing thrills for tourists in the form of scenery and historic attractions.

The rainy weather of Saturday was rather disconcerting to say the least.

Mr. and Mrs. C. R. Bennett of Big Tunnel were among those from a distance attending to business affairs here Friday.

Mr. and Mrs. Lloyd Smith of Alleghany and Mrs. C. Stevens of Nevada City attended the graduation exercises at San Jose State Teachers college where the latter's granddaughter, Miss Doras Smith completed her course.

MINING LOCATIONS ARE PLACED COUNTY RECORD

The following mining locations have been filed for record:

The Blue Bird placer by Gus and M. B. Sweeney, Archie H. Miller, Mrs. Augusta Miller, Ira A. Lynch and Mrs. Ira C. Lynch in Relief Hill Mining District, NE¼ Sec. 10 T17N R10E.

Cumtux quartz by J. W. Thomason in Sec. 30 T16N R8E in Rough and Ready Mining District.

White Goose Extension quartz by David J. Becker in Washington Mining District.

Samatri placer by David J. Becker in Washington Mining District.

PLACER NUGGETS TO BE MADE JEWELRY

Thirty pieces of placer gold weighing 3 ounces 3½ pennweights were on display at the St. Charles Hotel Thursday. Antone Lavezzola bought the collection of nuggets to be made into rings, stickpins and other pieces of jewelry. One nugget that had bits of crystallized quartz embedded in it was uncommonly pretty and would make a beautiful setting for a pin or ring. All are rough virgin gold, the sight of which is enough to make one want to gather up pick, shovel and pan and start up the nearest ravine

The specimens came from the Jack Tafft and son diggings at Poker Flat, in this county, sixteen miles from Downieville, where they have been ground sluicing They are nuggets picked up on bedrock ahead of the sluice boxes, which have not yet been cleaned up When the clean-up is made a showing is expected that will prove the richness and uphold the reputation of that district. —The Messenger.

DEVELOPMENT WORK MOVES AT RISING SUN

Development work at the Rising Sun property is progressing rapidly. A new drift has been started to develop the western portion of the property which has never been developed hitherto .The new work is near the junction of the Rising Sun and Big Oak veins and should prove a rich shoot from present indications. The work is being done on the Big Oak vein.

Charles E. Basso who is representing the New York interests behind the project is building a handsome new log bungalow at the property.

E. C. Klinker is in charge of operations.

GOLD TUNNEL BEING EXPERTED AT PRESENT

There is a possibility that operations may be undertaken at the old California and Gold Tunnel property lying within the west city limits. The property has been experted the past few weeks by mining engineers in behalf of unnamed interests. The property has a past production record of around a million dollars in the early days but has lain idle for a number of years. It was worked to the 700 level. Both shafts on the property have long since caved and it would be necessary to run new workings to open it up. The property is owned by the Allen estate of Marysville.

REUNION WELL ATTENDED

The reunion of former Nevada countians held at the state fair grounds at Sacramento last week drew a large attendance. Tom Monk acted as chairman of the day and the principal address was made by Judge George L. Jones whose remarks were warmly welcomed by the throng. .

Mr. and Mrs. Loren Sherwood of Albion, Michigan, motored out to California and stopped over here to visit old time friends before completing their tour of the state and vitisting other relatives.

W. E. Trood of San Francisco has been at North Bloomfield visiting at his old home, passing thru here Friday enroute home.

YUBA COMPANY SELLS RIGHTS TO THE PACIFIC GAS

With the pending sale of the Bullards Bar dam and the numerous and valuable water rights on the North and Middle Yuba rivers, the Pacific Gas and Electri Company in its proposed purchase of the holdings of the Yuba River Power Company will have the entire watershed of the three Yubas in its control, which probably sounds the death knell of the proposed dam at the Narrows near Smartsville in the near future, and which would mean the resumption of hydraulic mining in this county.

The Yuba company in building the Bullards Bar dam some years ago made it possible to resume hydaulicking in Sierra county and it had been ardently hoped that the company would proceed in the near future with the construction of the Narrows dam as it had taken more than a passing interest in the mining industry. It is reported that the Yuba company had been unable to interest sufficient capital to carry out its ambitious project on the North Yuba including five power houses. By the terms of its water right licenses it had to commence ctive work before July 1st next and it is presumed that the present transaction is in contemplation of that date.

In the proposed sale which is before the state railroad commission for ratification, the Yuba company will receive $150,000 in cash and the Pacific Gas will take over the indebtedness which amounts to over a million dollars. The properties included in the transfer are the Bullads Bar dam, the Bullards power plant, the Narrows damsite, the transmission line between Colgate and Bullards, stock in the Marysville hotel, and the various water permits from the state.

It would accomplish a great deal of the mining industry of this county if the Narrows dam were built as that is the keynote for the future of placer mining and until hat is done there is but little chance of relief. The coordinated water plan may bring this about in the course of time.

GAS TAX MONEYS TO BE INCREASED SOON

One of the forward looking pieces of legislation enacted by the last legislature and signed the past week by Governor Young was the alloting of $20,000 in gas tax funds to each county of the state prior to the division on the basis of auto registration. Formerly there were fifteen counties of the state that had received but small amounts. By this law Sierra county will benefit nearly $16,000 annually over what she has been getting. This money goes into highway maintenance. Nevada county will benefit several thousand dollars.

FOURTH OF JULY IS PASSED GRASS VALLEY

Apparently there is going to be no Fourth of July celebration at Grass Valley this year as the Legion members who were proposing to stage the entertainment found the finances lacking on the part of the merchants to put the idea over. It is unfortunate that was not determined earlier as Nevada City could have gone ahead and put one over again this year as she did last.

CAFETERIA LUNCH DELAYED

The cafeteria lunch which was to have been held at the auto park on Thursday by St. Agnes Guild, has been indefinitely postponed on account of the weather. The Giuld will however, on that day hold a cooked food and fancy goods sale in the Odd Fellw building on Thursday of this week.

Mrs. W. H. Martin who sustained a broken hip in April is now able to be up and around again. She has been under the care of Dr. R. F. Werner.

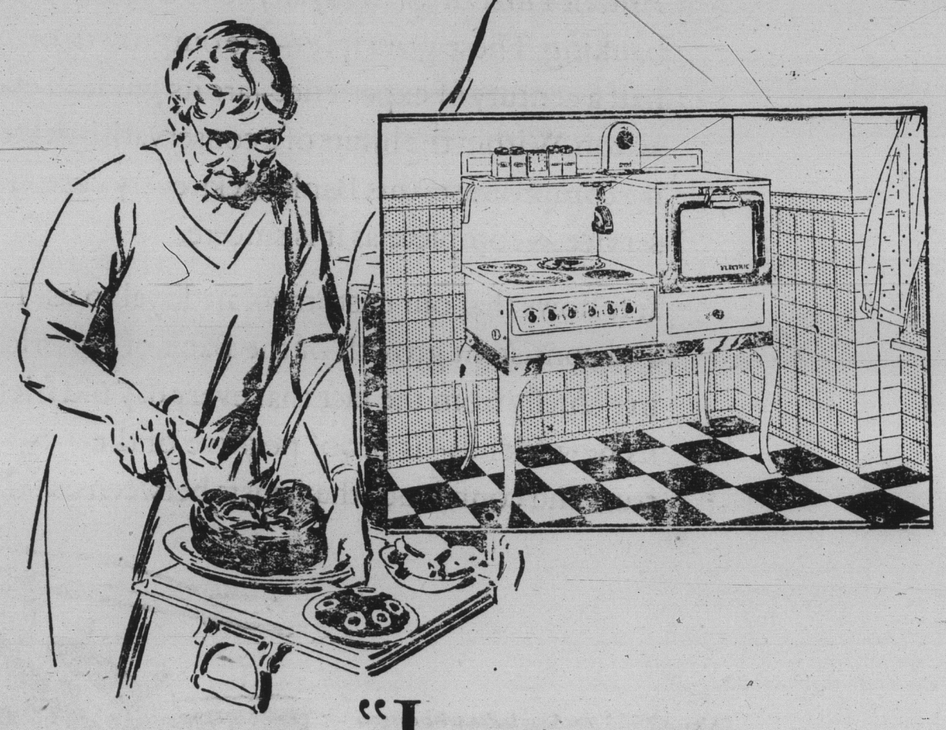
Grandma is cooking with electricity



"JUST keeping up with the times," says Grandma Collins, "I am one of the many new users of the electric range. I was just over at the P G and E's office and they told me one-thousand five-hundred of their customers will get electric ranges this May and June."

The electric range gives a beautiful, clean kitchen and perfect baking to women who love modern methods.

The electric range has white and gray porcelain enamel that makes kitchens attractive. It bakes perfectly. And it does it automatically. The oven heats up to 400 degrees in 9 to 11 minutes—as fast as one can mix biscuits. The open or closed cooking elements are now made smaller to fit your pans. Heat that was formerly wasted goes to work. Food cooks faster, less electricity is used.

While you're downtown, stop in at a dealer's or at our office and see these new electric ranges. Or telephone us and our representative will gladly show you pictures of the many beautiful new models.

Electric water heating is now economical

The cut in rates of a year ago, means that an electric water heater, when used with an electric range, heats water for only one-third to one-half of a cent per gallon. So little to pay for hot water. And a CLEAN, COOL, all-electric kitchen.

No wonder that women using electricity for cooking are turning to electricity for heating water.

FRENCH CORRAL ITEMS

FRENCH CORRAL, June 15, (Special to The Nugget)— Well, yesterday was surely summer weather, but the night was almost chilly. That is one blessed comfort in this part of the state. No matter how hot the days, the nights are cool and comfortable. Wonderful Nevada county! The ideal place to enjoy life!

Well, let's see what's going on for the week.

We sincerely hope many are thinking of the good time they are going to have at the Water Association dance tomorrow night. We hope it will be a social and financial success.

Mr. and Mrs. S. Wood and little son, Carl, were Friday visitors.

W. P. Clerkin returned from Pike where he has been attending his cattle.

Miss Louise Moulton made a trip to Sacramento. She was accompanied by Miss Millie Clerkin, and Miss Barbara and Richard McMinn. Her sister, Miss Frances, returned with her, to spend the week's end at home, and be in attendance for the dinner given in celebration of Mr. and Mrs. Moulton's birthday on Sunday. On this occasion Mr. and Mrs. Moulton were the recipients of some beautiful presents.

Miss Frances Moulton returned to Sacramento Sunday evening, where her parents and sister accompanied her.

A. H. Behrens of Camptonville recorder at the lookout station of the U. S. Forest Reserve, was a visitor at the home of Mr. and Mrs. De Prati. Mr. Behrens is much interested in hearing of the recent copper find in this place.

NO. 5702

In the Superior Court of the State of California, in and for the County of Nevada.

SARAH PRESCOTT, Plaintiff,

vs.

JOHN SENNER, Sr., CHRISTINA SENNER, his wife, JOHN SENNER, Jr., FRED SENNER, WILLIAM SENNER, EMMA MALTMAN, ALEXINA C. M. GRISSEL, GEORGE A. GRISSEL, her husband, ARTHUR BARTON, and also all other persons unknown, claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, Defendants.

Action brought in the superior court of the State of California, in and for the county of Nevada, and the complaint filed in the office of the clerk of said county of Nevada.

F. T. NILON,
Attorney for Plaintiff.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETING TO:

John Senner, Sr., Christina Senner, his wife, John Senner, Jr., Fred Senner, William Senner, Emma Maltman, Alexina C. M. Grissel, George A. Grissel, her husband, Arthur Barton, and "also all other persons unknown, claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership or any cloud upon plaintiff's title thereto," defendants:

You are hereby directed to appear and answer the complaint in the action entitled as above brought against you in the superior court of the state of California, in and for the county of Nevada, within ten (10) days after service on you of this summons if served within this county; or within thirty (30) days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgement for any money or damages demanded in the complaint, as arising upon contract, or she will apply to the court for any other relief demanded in the complaint.

The object of the action is to determine all and every claim, estate, right, title, lien or interest in the real property hereinafter described, adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto; to obtain a judgment of this court adjudging and decreeing that plaintiff is now, and has been, by herself and her predecessors in interest, in the actual, exclusive and adverse possession of said real property, continuously for the period of twenty (20) years immediately prior to the filing of the complaint in this action, claiming to own the same in fee as her separate property against the whole world, and that plaintiff by herself and predecessors in interest has paid all taxes of every kind levied or assessed against said real property during the period of five (5) years next preceding the filing of the complaint aforesaid; that plaintiff is the owner and entitled to the possession of said real property; that all claims of said defendants thereto are without right, and that defendants have not, nor has any of them, any right, title, estate, or interest in said real property or any portion thereof.

The real property affected by this action, and hereinbefore referred to is described as follows:

All that certain lot and parcel of land situate in the city of Nevada County of Nevada, State of California, bounded and described as follows, to-wit:

All of the lot numbered three (3) and a portion of the lot numbered twelve (12) of block numbered (12) in said city of Nevada, as said lots and block are designated and delineated upon the map of the official survey of said city made by H. S. Bradley in the year 1869, described as follows, to wit:

Beginning at a point on the east line of Main street from which the corner of Main and Church streets bears north 28° 13' west 91.68 feet; thence from a true meridian north 62° 57' east 52.23 feet; thence north 14° 21' west 9.15 feet; thence north 21° 21' east 68.57 feet to the northeast corner at a stone wall on Coyote street, from which the corner of Coyote and Church streets bears north 4° 57' west 80.20 feet; thence south 5° 44' west 51.35 feet along Coyote street; thence south 76° 30' west 43.40 feet along stone wall; thence south 61° 07' west 56.70 feet to Main street from which the north west corner of Snyder's brick garage bears south 27° 25' east 60.38 feet distant; thence north 29° 49' west 51.10 feet along concrete wall to the place of beginning.

Given under my hand and the seal of said superior court of the state of California, county of Nevada, this 22nd day of December 1928.

MANY INTERESTING SUBJECTS TAKEN UP BY STUDENTS AT CAMP CELIO AT LAKE VERA

The Camp Fire Girls had as a visitro at Lake Vera recently Mr. Bert Harwell, naturalist, who gave them many instructive ideas in the intensive training course now being held at the lake. He found 23 varieties of birds in the woods after a two day search.

Thursday night he broadcasted the results of his study at Lake Vera over Station KGO. He is president of the Pacific Coast Division of the Audubon Society, and is chief naturalist in the Yosemite National Park. Mr. Harwell was more than pleased with his visit at Camp Celio on Lake Vera and this district will receive quite a nice lot of publicity as the result of his visit.

Thursday evening the 75 young Camp Fire student at Camp Celio at Lake Vera motored to Banner Mountain where a camp fire ceremonial was held. Camp fire songs

1800 conversations at once through a cable less than 3 inches thick

THE earth beneath our great cities is so crowded with pipes, cables, etc., that any further additions create serious engineering problems. Yet the number of telephone calls that must flash underground is steadily increasing.

The challenge to the scientific minds of the Bell System was to find a way for more conversations in existing conduits. Today, by many improvements, cables of 1800 pairs of wires have been perfected. Eighteen hundred conversations at once—600 more than before—can pulse through them.

There is no standing still in the Bell System. Better and better service at the lowest cost is the goal.

PROSPER WITH THE NATION

It is the man who works and saves who forms the backbone of this great country. The farmer who sits back or visits when there is work to do, is never prosperous. The man who works early and late, collecting his money and banking it, paying it out by check, i slooked upon as the most prosperous citizen we have in the community.

It matters little what your method of getting an income is, as long as it is honest. The grea secret is ta spend a little less than you earn, bank that little and watch it grow. People who do that are prepared for emergencies, and are usually referred to by their friends as "lucky," when they have been but applying sound business principles.
